With each new Marvel film one could expect the studio to push the limits of what a superhero film should consist of. Films such as Captain America: Winter Soldier, Guardians of the Galaxy and Ant-Man all consisted of elements that we have never seen within a superhero film before. Now, Marvel Studios attempts to push the envelop once more by leaving the world of high tech armors and super soldiers and entering the...

All continues to be well in the Marvel Comics Universe as the film adaptation of another mischievous and majestic superhero from Stan Lee's printed page empire emerges and reigns supreme on the big screen. The latest cure from the Marvel movie bag of explosive tricks is the entry of the dazzling and decorative "Doctor Strange". Armed with a collection of notable performers, a convincing colorful scope of visual vibrancy...

I will begin this by saying I was hyped about this film since it was announced because I was always attracted to magic and the supernatural and Doctor Strange is one of my favorite Marvel superheroes. PLOT: A simple enough story, a brilliant surgeon's journey from the peak of his career to a ruined man, incapacitated due to an accident. Losing all his money in an attempt to heal his hands, he finds out about a mysterious healer in a...

"When a science person was the chosen one in the spiritual world!" You would have not expected it from this director if you had seen his previous films. This was based on the Marvel comics that I haven't touched. So basically I had high expectation to witness another side of Marvel universe with another set of (super)heroes. And surprisingly, it was very entertaining, nothing like other Marvel's heroes/story, except the...
